

Millennium Series™ eBrochure

The Millennium Series is the true workhorse of the BraunAbility line. Designed for installation in the side or rear doors of personal-use full-size vans, four standard models with two platform widths and various lengths ensure there is a power wheelchair lift to fit your needs. With dual hydraulic lifting arms, you'll come to rely on the lift's strength and dependability day after day, year after year.

The BraunAbility **Millennium Series** lifts are fully hydraulic in operation, for both the fold/unfold and up/down cycles. Lift operation is controlled by the standard hand-held control, the on-lift controls, or the optional remote control.

To make your travels more enjoyable, each lift features BraunAbility's Quite Ride® system to ensure the quietest possible riding environment.
