

VL955 Vista Series™ eBrochure

The Vista Series offers a unique solution to your personal mobility. The stacking platform stows below the level of the vehicle's windows, allowing you to enjoy the ride and the view. More importantly, the driver's vision is unobstructed - increasing safety and your peace of mind.

The Vista Series lifts are fully hydraulic in operation, for both the fold/unfold and up/down cycles. Lift operation is controlled by the standard hand-held control, the on-lift controls, or the optional remote control.

The Vista Series is designed for installation in the side or rear doors of personal-use full-size vans. To make your travels more enjoyable, each lift features Braun's Quiet Ride™ system to ensure the quietest possible riding environment.
