

Transfer Board

The BraunAbility Transfer Board serves as a bridge between the passenger and the vehicle seat, creating an ideal assistive device to make vehicle entries and exits easier and safer.

The simple device rotates out and down when needed and stores up and out of the way when not in use. All of the vehicle's original seat functions are retained, and a three-year warranty is included.

The BraunAbility Transfer Board can be installed in the front row positions of select passenger cars, minivans and small CUVs.

Experience the ease of quick, effortless transfers with the assistance of a BraunAbility Transfer Board.
